PORTLAND, OR

INES RADIC

WEB DEVELOPER

Web developer with extensive knowledge in front and back-end development. University of Oregon graduate with a bachelor's degree in General Science and currently enrolled in the university's Full Stack Web Development Coding Bootcamp. I have newly developed skills in Javascript, CSS, HTML, and responsive web design using frameworks such as Bootstrap and Materialize. Known as a highly motivated individual, I bring forth great communication skills with my extensive customer service experience, understanding of user needs with my marketing background, and overall passion for front-end development. I am excited to apply my skills and experience to a driven team and further my knowledge in web development.
